Determination Numbers Lie. Use

Determination is so powerful in the Path of Exile that every build has it. This is partly due to the way it works, partly due to Molten Shell. If your build doesn't have it, pick a random aura. Repeat until you can resist it. You fit in Determination. Your build is better.

Aura clusters (tree and cluster) provide more survivability. Grace and Defiance Bands.

Build Around Uniques

Note

There's an amazing online resource listing community estimates of rarity tiers for unique items. (Thanks /u/PoorFishWife)

Tier 5: Achievable in trade by level 50

Tier 4: Twice as rare. Achievable in trade before your 15th map

Tier 3: 4 times rarer. Achievable in trade day 1 for powergamers, day 5 for casual players. Requires focused farming in SSF e.g. grinding Heist unique chests.

Tier 2: 4 times rarer. Think Shavronne's Wrappings and Brass Dome.

Tier 1: 3 times rarer. Badge of the Brotherhood, Asenath gloves. This might be a casual player's whole of league goal to acquire.

Plan accordingly! Know your limits.
